

## HEALTH INSURANCE

Please take the time to shop and compare the following (alphabetically arranged) companies that offer pet health insurance. Companies may go out of business, or may change their policies, and policy terms vary depending on the state, so the list below is only a list – you need to get detailed information when you are shopping and comparing. And don't be surprised if you get nowhere with companies that have “folded their tents” since the list was formulated.
