Bully Remedy	When one animal wants to control and dominate the others; to help the bully relax and let others go about their business.
Changing Times	For adjusting to major life changes, such as moving, the arrival of a new baby, new roommate, or other long-term or permanent situations.
Declaw Remedy	Helps heal the physical and psychological wounds from declaw surgery, no matter how long ago it was done.
Easy-Traveler	For animals who are fearful about traveling. Helps relieve motion sickness in dogs and cats, helps horses keep their balance during transport.
Feline Performance	For the stress of travel and showing, especially for the "newbie" show cat; helps prevent or reduce reactions such as fear or aggression.
Feline Training	Yes, cats <i>can</i> be trained! This formula will help with training or assist with breaking bad habits.
Feral Cat Rehabilitation	To help feral cats overcome their fears, to facilitate the process of domestication, and to allow them to accept and reciprocate attention and affection from people.
Graceful Aging	Helps to cope with the aging process. Disperses unhealthy energy patterns that can get "stuck" and contribute to general grouchiness, senility and disease.
Grouch Remedy	For the animal who is moody, depressed, or despondent. Especially good for animals who are easily annoyed by children, rambunctious animals or generally chaotic homes.
Healthy Helper	To provide energetic support for the immune system. Helpful for the animal who is recovering from illness, injury, or surgery.

Holiday Stress Stopper	The holiday season can also be very stressful for our pets. This special edition of our popular Stress Stopper formula has added ingredients to help cope with the increased hustle and bustle.
Hyper Helper	For the animal who often resembles a furry blur! To help balance out-of-control energy with softer, integrated actions.
Loss Remedy	For the animal who is mourning or having difficulty accepting the loss of a mate or companion.
Night Owl Remedy	For animals who are determinedly nocturnal, whose circadian rhythms are out of sync with the rest of the household. While pursuing behavior modification, this remedy is great to help retrain animals with the middle-of-the-night crazies and let everyone rest more soundly.
Obsession Remedy	For animals with obsessive-compulsive behaviors such as excessive grooming, self-mutilation, pacing or over-vocalization.
Peacemaker	To reduce or eliminate aggression, tension, and jealousy between animals. Helps keep the peace in multi-animal families.

Scaredy Cat	For the very shy, timid, or fearful cat who runs from every little noise, or who lives in the closet or under the bed.
Self-Esteem	For animals who lack self-confidence or who are overly submissive; including submissive urination in dogs. For the picked-on animal, the doormat with a "victim" attitude.
Separation Anxiety Remedy	For the pet who gets anxious or upset when you're getting ready to leave, or acts out or becomes destructive as soon as you're gone.
Stress Stopper	Helps animals adapt and cope with unusual or stressful situations, such as thunderstorms, boarding, remodeling, visitors, or similar situations. Helps animals feel grounded and protected. Helpful for animals who get stressed while traveling or who get carsick.
